

## Lift the Butt, the Brazilian Way - Brazilian butt lift procedure gaining ground

Miami, FL, May 09, 2009 --([PR.com](#))-- Since time immemorial, a woman's curvy figure has been influencing many a great poets and artists, let alone attracting the opposite sex. The more the hip to waist ratio, the more beautiful a woman is considered and not everybody is blessed with those perfect figures. Apparently, Cosmetic Surgery has become inseparable from the ones looking for a perfect body and is ready to spend to go under the knife.

The cosmetic surgery trends, too, are shifting the focus from one procedure to another. There was a time when the breast used to rule the chart. Recently, it's the butt. Some of the popular celebrities have boosted the popularity of 'Brazilian Butt Lift' procedure to a never seen before level.

Reportedly, Cosmetic Harmony, a medical tourism company specializing in cosmetic surgery and travel packages to Columbia, has been witnessing a dramatic increase in clients requesting the 'Brazilian Butt Lift' procedure.

'Butt is quickly becoming the most scrutinized body part. Even the prehistory talks about how the attraction of a curvy woman's rear helped spread the human race. There was a time when breast implants used to be our most common procedure and now the ratio of 'Brazilian Butt Lift' to 'Breast implants' in Cosmetic Harmony is on a 3 to 1 basis. This procedure is performed by injecting the fat which is collected from other areas of the body by liposuction, into the buttocks. The fat is processed and purified before it is re-injected. Interestingly, the procedure also calls for a fairly artistic eye that can carve bodies, and the hands that will know the exact spot to inject the fat for the most satisfying results,' says Anthony Giudice, Cosmetic Harmony Sales Supervisor.

'The Colombian surgeons have been, successfully, performing the procedure for many years for thousands of patients from across the globe. Their success stories, actually, wards off the fear of being put under the inexperienced hands. Though, 'Brazilian Butt Lift' procedure is fairly new, it is as common to breast augmentation procedures for Cosmetic Harmony's surgeons. Hence, our clients get the best lift, the Brazilian Way,' quips Giudice.
